

SWEDEN

Sectors

EXPECTED IMPACTS

KEY RESULTS

- ☑ Farmer and veterinarian interviews
- ☑ Mapping of the supply system; highlighting room for improvement in antibiotic-free labelling

METHOD

- ☑ Assessment of Swedish current situation in AMU as regards experiences, practices and attitudes of farmers and vets, and formal system

GOAL

- ☑ Provide a proof-of-concept that livestock production is possible with low antimicrobial use (AMU)

INDUSTRY

- ☑ Benchmarking against other EU countries
- ☑ Opportunities to learn from other countries

FARMERS & TECHNICIANS

- ☑ Benchmarking against other EU countries
- ☑ Opportunities to learn from other countries

ANIMAL HEALTH PROFESSIONALS & VETERINARIANS

- ☑ Opportunity to share experiences and suggestions on Swedish AMU

POLICYMAKERS, CONSUMERS, CITIZENS

- ☑ Knowledge on the use of AMU and the experiences of veterinarians and farmers in different EU countries
